About NHG

NHG has 40 years of expertise in plastic production. Since founded in 1986 in the Copenhagen area, Denmark, we have built a market-leading position through our brands, Plast Team and NHG. From our Copenhagen office, we have designed and developed every single product in our portfolio, many of which have been bestsellers for decades.

With a diverse assortment, we offer functional and innovative solutions for all living spaces. We create organized living.

Functionality and durability are key when we design for organized living. Nordic design is in our DNA, and we take pride in choosing the right colors and materials for our products to ensure long-lasting and contemporary designs. We design for functionality and sustainability because we believe in preserving and protecting our environment. We seek sustainable alternatives and are committed to guide and inspire towards greener choices when possible. To us, good quality is never a compromise.

NHG[®]
ORGANIZED LIVING

40 years of Storage Expertise

NHG is an expert in storage solutions. With 40 years of expertise NHG has built deep knowledge of how to refine storage and design the optimal solutions. Our storage concepts have been developed and refined over years of insight into how people store, organize, and live.

We offer a broad range of storage to match any requirement and budget. From cost-optimized everyday essentials to premium solutions, from functional design to home décor storage our portfolio is guided by design, functionality, and long-lasting durability.

The assortment covers storage concepts created in collaboration with established, well-known Danish designers. These concepts represent Nordic simplicity, yet beautiful design details and serve as both a storage item and an aesthetic decorating element for your home and proudly produced in recycled plastic.

For more functional needs, we provide robust storage where durability and usability come first. Ranging from the basic storage box to the premium quality box to the specialized hobby box, the concepts are made to handle daily wear and keep everything in order.

Explore our collections and find your choice of storage.

NHG and Sustainability

Plastic is too good to waste. At NHG, we're committed to progressing our sustainability efforts, while inspiring and guiding our customers to make more sustainable choices. NHG presents a range of durable, high-quality home goods that are not only designed to endure, but are also environmentally conscious.

A greener approach to consumer goods involves embracing recycled materials. By promoting sustainability without compromising quality or design, we are excited to continuously introduce a range of our concepts in 100% recycled plastic.

These concepts are only the beginning of our greener journey at NHG. As we're continuously evolving, we will stay on this path of introducing consumer products in greener alternatives.

We Support your Sustainability Ambitions

We extend an invitation to join us on this journey.

If you're interested in any of our products that haven't yet transitioned from virgin materials to a more sustainable alternative, please contact us.

Together we can share this mission to make a positive impact on our planet.

Certificates and Standards

The factories we partner with are ISO-certified and actively participate in SEDEX/SMETA and amfori BSCI audit programs. This ensures our manufacturing partners adhere to internationally recognized standards for quality, environmental responsibility, and social compliance.

To ensure compliance with regulations, we collaborate with accredited laboratories and regularly test our products.

NHG's Sustainability Commitments

Our sustainability strategy is built around four key commitments:

Recycled Materials.
At least 30% recycled materials in 100% of our plastic products by 2030.

Zero Waste.
Eliminate all production waste by 2027.

Design for Circularity.
Designing products for recycling.

Responsible Workplace.
For our employees and suppliers.

Wide Assortment

We offer a wide assortment of high-quality plastic products across three core categories: Storage, Food & Drink, and Cleaning & Laundry. Designed in Denmark and rooted in Nordic design traditions, our range combines clean aesthetics, practical functionality, and strong value for money. With solutions made for everyday life, our products help you organize and simplify every room in your home.

We specialize in large storage boxes and have a broad range for all consumer needs within storage. We create food storage concepts, that allow organizing your kitchen efficiently and fresh food storage that supports less food waste. With our cleaning and laundry products you find the products that you need for everyday use.

Where Storage Becomes Design

Maria Berntsen
Danish Designer

Renowned Danish Designer, Maria Berntsen, is known for shaping everyday products into calm, functional design objects for the modern home. Her approach is the foundation of our storage concepts Akita and Seoul, where storage becomes an aesthetic design object that also works as a natural part of the décor.

Maria Berntsen is a Copenhagen-based Danish Designer with degrees from The Royal Danish Academy of Art and l'École d'Architecture de Bordeaux. She has been a close partner of NHG for years and values the point where functionality meets aesthetic design. Maria plays a key role in Danish product and industrial design, especially within contemporary living and lighting products.

With Maria Berntsen, products are developed with functionality, Nordic simplicity, and sustainability in mind and always with a cohesive design language. Her concepts are created to work beautifully on their own, yet also combine seamlessly across ranges, allowing consumers to mix and match pieces for a unified, calm look throughout the home.

Produced in 100% Recycled Plastic

All NHG storage products designed by Maria Berntsen are produced in 100% recycled plastic balancing great design with sustainability.

AKITA

reddot winner 2025

In 2025, the Akita collection received the Red Dot Design Award for its beautiful and distinctive design. The Red Dot award is awarded for high design quality, celebrating innovation in product design.

The Akita collection seamlessly blends functionality with Nordic elegance, designed by renowned Danish Designer Maria Berntsen. It showcases a distinctive focus on design with trend colors and unique design details, such as the recognizable grooved surface, integrated handles, and a sleek lid.

Akita isn't just about storage; it's about elevating your home's aesthetic while keeping things organized. The versatility of the Akita collection allows you to personalize your space effortlessly, mixing colors of box and lid to create a storage solution that is truly your own. As part of the NHG portfolio, Akita represents the next generation of stylish, functional storage solutions, perfect for the modern home.

In line with NHG's commitment to sustainability and to show that good design can be sustainable, the Akita collection is crafted from recycled plastic because - plastic is too good to waste.

SEOUL

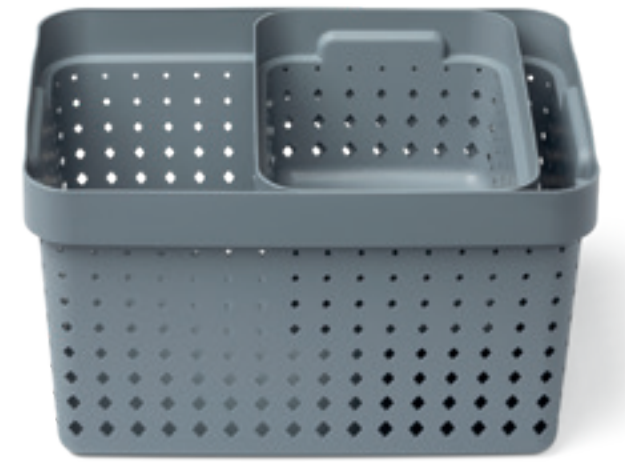

The Seoul collection, designed by Maria Berntsen, is a refined Nordic storage solution combining functionality with timeless elegance and simplicity.

Distinguished by its signature diamond-shaped perforations, the collection offers a light, modern expression that adds character while allowing content to remain visible and accessible.

Designed for everyday living, Seoul helps create calm, organized spaces throughout the home from bathroom and office to bedroom and laundry room.

The collection is available in baskets, square and round organizers, and laundry baskets, and comes in six carefully selected, trend colors making it easy to find the perfect match for any interior.

The Seoul collection is designed for frontstage storage; pieces you will want to display as part of your interior. With its distinctive diamond-shaped design and meticulous attention to detail, the collection brings a refined, modern expression that fits into any home.

The collection includes baskets, square and round organizers, and laundry baskets, offering versatile storage solutions for every room.

Available in six beautiful, on-trend colors, the products are stackable and designed for everyday practicality. In line with NHG's sustainability commitment, the collection is produced using 100% recycled plastic.

The wide variety of shapes, sizes, and colors allows you to mix and match freely, personalizing your space while meeting all your storage needs.

In line with NHG's commitment to sustainability and to show that good design can be sustainable, the Seoul series is crafted from 100% recycled plastic because - plastic is too good to waste.

Storage Boxes

At NHG, we are dedicated specialists in storage solutions. We are proud to offer one of the widest and most versatile assortments on the market, with many sizes and functionalities that cover a broad range of storage needs. Whether made from virgin or recycled materials, every box is designed with functionality, durability, and sustainability in mind and spans multiple quality levels and price points to meet different demands in the market.

Our boxes are created for optimal organization and easy, stable stacking. The ranges are all food approved, making them suitable for everything from pantry storage to everyday household use. With NHG, you'll find the right storage solution for every purpose.

GOOD

Basic Box

The affordable storage choice in good quality. The Basic Box offers a wide range of sizes and practical functionalities, making it easy to organize any room. A great value choice with a simple design and no clips.

BETTER

Home Box

The Home Box series represents the classic storage solution, while outperforming the market on cost and during transportation. The Home Box is available in many functional sizes, and with the Flex Lid designed to stack even better leading to high logistics efficiency.

BEST

Probox

The premium choice for those who demand quality and durability. The Probox is designed for exceptional strength in both box, lid, and clips. It's available in a wide range of sizes including recycled plastic.

PROBOX

Probox is our premium organizing system, developed for exceptional strength and durability. These high-quality boxes are designed to last a lifetime.

Each Probox is made using extra material to reinforce the structure and allow it to carry heavier loads. Strong, large-sized clips ensure secure fastening of the lid.

Probox is resistant to both low and high temperatures, making it suitable for storage indoors as well as outdoors.

All boxes are modular stackable for optimal spacesaving storage and the recess and furrows in the lid prevents them from shifting when stacked.

With volumes ranging from 0,4 L to 70 L, Probox offers versatile storage solutions. The durable design ensures suitability for a wide array of storage needs, making Probox the ideal choice for storage needs.

The Probox can be crafted from both virgin plastic or 100% recycled plastic.

HOME BOX

The Home Box series is designed as a highly cost- and logistics-optimized storage solution. Featuring a limited stacking height and a perfect pallet fit, the design ensures maximum efficiency throughout the supply chain.

Logistics are further optimized through the innovative flex lid, which folds neatly inside the box. This allows for fully optimized stacking whether packed in cartons or on fully stacked pallets.

With the lid stored inside the box, the shopper never misplaces it, and no additional shelf space is required for separate lids, creating a smarter and more efficient retail solution.

The Home Box range consists of three distinct concepts: the standard, fully optimized Home Box; the innovative Home Box Flex; and the extra-strong, durable Home Box Plus.

Each concept is available in relevant sizes and formats, and products are available on ready to sell, optimized pallet solutions.

BASIC BOX

Basic Box is an affordable, versatile storage solution designed for everyday use. With a focus on cost efficiency, modularity, and stackability, the design ensures optimal space utilization across a wide range of storage needs.

Made from transparent plastic, the boxes provide a clear view of the contents for quick and easy access. They are temperature resistant, food safe, and dishwasher safe making Basic Box suitable for a variety of practical uses in the home.

The Basic Box series is developed for a wide range of storage needs and everyday uses. Designed for general storage, the boxes are available in many sizes and formats making them ideal for everything from household organization to space-efficient bed storage.

The series also includes shoe boxes in multiple sizes, accommodating everything from everyday footwear to high heels and boots.

Most recently, the Basic Box series has expanded with Closet Organizers, specifically designed to fit standard wardrobe dimensions. This addition offers a smart solution for organizing clothing and accessories while making the most of limited wardrobe space.

Food Storage and

Dry Food Storage

Our dry food storage solutions combine function and simplicity in a distinct Nordic design. The concepts are offered in multiple sizes to match different ingredients and everyday needs. Made in fully transparent plastic, the containers provide full visibility, so it's easy to keep track of contents and quantities. The material is carefully chosen for long-term storage, helping dry foods stay fresh and well protected over time.

With their clean, minimal expression, the range fits naturally into any kitchen whether displayed on the countertop or open shelf, or neatly organized inside a cupboard.

Fresh Food Storage

Our fresh food storage range is designed to meet a wide variety of everyday needs, combining practical function with clean Nordic simplicity. The assortment spans different concepts from the straightforward, reliable box with a click lid to premium solutions featuring silicone seals and secure clips that help keep food fresh for longer.

To fully cover all storage situations, the concepts are available in many sizes and convenient sets. Every box is made of transparent plastic for full visibility, making it easy to see what's inside, reduce food waste, and keep the fridge organized and inviting. All concept are suitable for both fridge and freezer.

Kitchen Utensils

Kitchen Utilities

Plast Team offers a wide range of kitchen utensil concepts designed for everyday use. From cutting boards and kitchen bowls to measuring jugs and other practical essentials, we have the right solution for every task. Many products are available in multiple sizes, so you can choose exactly what fits your cooking habits and household needs.

Let Plast Team equip your kitchen with reliable, easy-to-use tools that make cooking simpler and everyday moments more enjoyable.

Microwave Boxes

Heating food in the microwave requires a high-quality container that is safe for food contact and built to handle high temperatures without affecting the taste or quality of the food. That's why we designed Micro Box, a dependable concept made from heat-tolerant material, so you can warm your meals with confidence.

Micro Box is made for everyday versatility: use it for storing leftovers in the fridge, freezing meals for later, and reheating directly when needed. One simple solution for safe storage and convenient heating, day after day.

Display Solutions

Generic display solutions. Drive impulse purchases and increase sales by moving products onto the store floor. Our display solutions are designed to capture attention, highlight key assortment, and inspire shoppers beyond the shelf.

NHG offers displays in a range of sizes, designed to meet varying needs across different store formats and product categories.

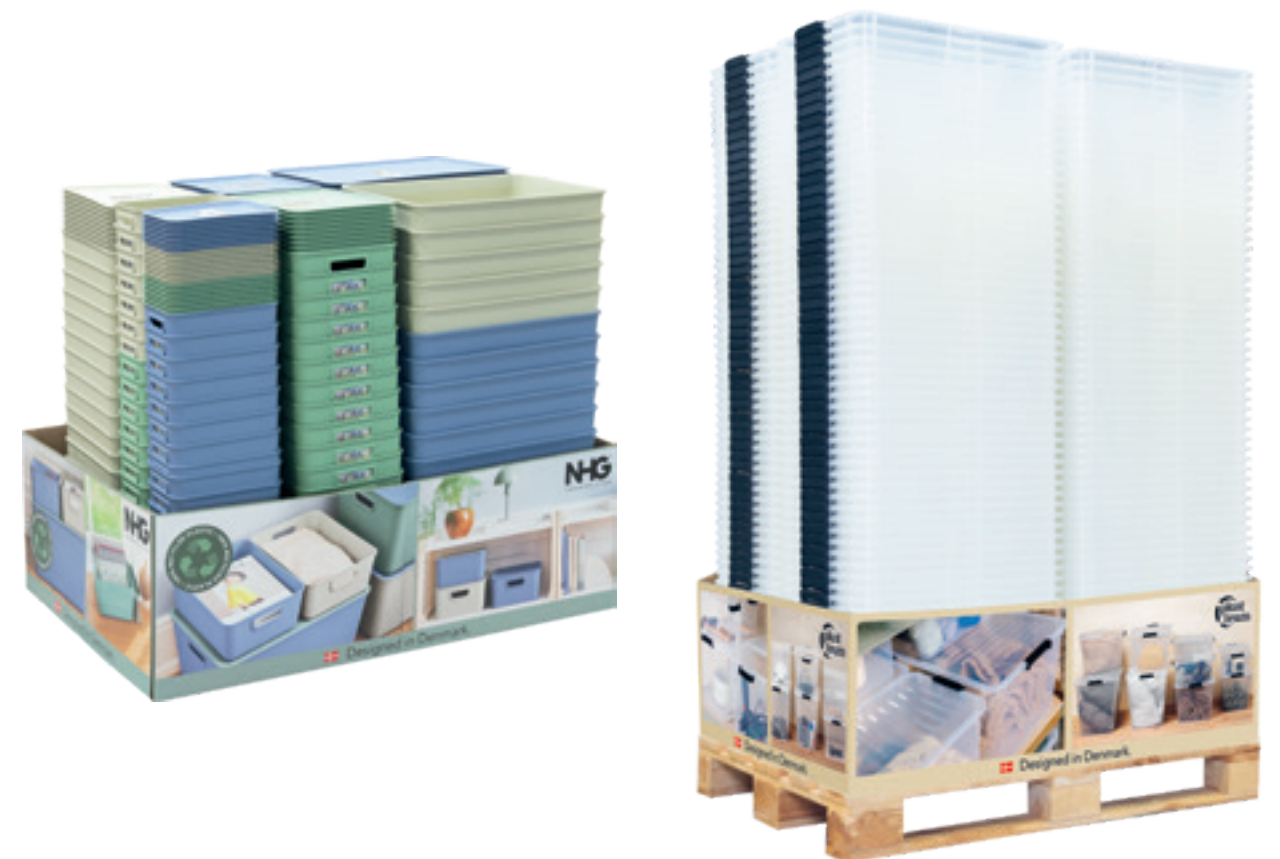

Activate products with ready-to-sell pallet solutions designed to maximize visibility and shopper impact. Contact your NHG sales representative to find the best solution for your business.

We offer 1/4, 1/2, and 1/1 pallets to cater for all needs.

Maximize Visibility, Shopper Impact, and Logistics Efficiency

Storage boxes perfect for pre-packed pallet solutions. Storage boxes represent high rotation and large-sized products, making floor exposure a great alternative to shelf increasing visibility and shopper impact. Designed for convenience, the storage boxes come in ready-to-sell pallet configurations, allowing pallets to be loaded directly in to the stores while providing a cost-efficient solution for your business.
